

Disability Equality

Adept is a disability equality company that delivers training, access audits and transcription services. Adept professionals work with commercial, statutory and voluntary sectors. Our experience of disability and that of our disabled colleagues and clients inform our services.

Our transcription service is focused on delivering inclusive communication through the provision of high quality alternative formats and media to your clients and staff.

Braille representation of the title "Disability Equality".

Braille representation of the main body of text, including the introductory paragraph and the transcription service description.

Equality

The challenge is to communicate in the recipient's preferred format at the same time, with the same content and quality as the original document.

The idea is simple; you provide us with an early electronic copy of the document and we will deliver the transcribed version on the 'same day' as the original.

Equality

Equality is a challenge for all of us. It is a challenge to communicate in the recipient's preferred format at the same time, with the same content and quality as the original document. The idea is simple; you provide us with an early electronic copy of the document and we will deliver the transcribed version on the 'same day' as the original.

Equality is a challenge for all of us. It is a challenge to communicate in the recipient's preferred format at the same time, with the same content and quality as the original document. The idea is simple; you provide us with an early electronic copy of the document and we will deliver the transcribed version on the 'same day' as the original.

Next day

We can turn a document around in 24 hours.

We would discuss and agree with you the different transcription options available to us, such as form of original document, the level of presentation and distribution with your client.

Please contact us for further discussion on this service.
